3rd international conference of the <Forum wissenschaftliches Schreiben>
 (forum academic writing)

Academic Writing as Key Competence

10–11 June 2010 in Zurich /Switzerland

Writing during university education and writing in academic work and life interact with each other. The aim of this conference is to discuss the possibilities and limitations of these interactions, and to find ways in which they are brought into closer contact.

The conference is aimed at writing professionals, university members and other interested groups and provides a forum for discussion and networking. It continues the lively exchange that started five years ago. It should be intensified and taken to a new level.

The conference is organized by the Forum wissenschaftliches Schreiben in collaboration with the Deutsches Seminar, University of Zurich, and the University of Teacher Education.

The conference language is German. Contributions in English and French are welcome.
